

ALTHAF M A

Frontend Developer

✉ althafmarahman@gmail.com ☎ +91 7558808587 🌐 Github 📁 Portfolio

PROFILE

Skilled Frontend Developer with four years of practical experience creating user-friendly web apps and designs. Capable of turning design ideas into smooth, reliable, and adaptable code. Experienced in teamwork across different departments to provide top-notch digital experiences. Enthusiastic about keeping up with new industry trends and technologies to design modern and attractive user interfaces.

KEY SKILLS

- **Frontend Frameworks:** Proficiency in popular frontend frameworks such as Angular, Lit.js, React etc.
- **Responsive Frameworks:** Experience with responsive CSS frameworks like Bootstrap or Foundation for streamlined layout development.
- **Build Tools:** Familiarity with build tools like Webpack to enhance development workflows.
- **Browser Developer Tools:** Adept at utilizing browser developer tools for debugging and optimizing frontend code.
- **Unit Testing:** Proficiency in unit testing using frameworks like Jest and Jasmine to ensure code reliability.
- **Code Review:** Ability to conduct and participate in code reviews to ensure code quality and adherence to coding standards.
- **User Authentication:** Experience in implementing user authentication and authorization using JWT.
- **Single Page Applications (SPAs):** Expertise in building interactive SPAs using frontend libraries and routing tools.
- **Frontend Performance:** Familiarity with tools and techniques to optimize frontend performance, including lazy loading and code splitting.
- **Version Control Workflow:** Mastery of advanced Git workflows like feature branching, pull requests, and rebasing.

SKILLS

Angular • TypeScript • Micro Frontend • Lit element
React.js • JavaScript • Nodejs • HTML5 • CSS3 • Git
Agile • PHP • CodeIgniter • MySQL

PROFESSIONAL EXPERIENCE

Capital One(Contractor)

Frontend Developer

Jan 2022 – present | Bengaluru, India

- Translating design concepts into captivating and user-friendly interfaces.
- Creating layouts that adapt seamlessly to various screen sizes and devices.
- Utilizing lit.js, Angular and Jest for efficient UI development.
- Designing and building modular and reusable UI components.
- Enhancing frontend performance for quicker load times and smoother interactions.
- Using Git for collaborative development and maintaining code history.
- Working closely with designers, backend developers, and stakeholders for successful project delivery.
- Participating in Agile processes including daily stand-ups, sprint planning, and retrospectives.

Travancore Analytics

Frontend Developer

Dec 2021 – present | Cochin, Kerala

- Adapting to limited resources and rapidly changing requirements to deliver results efficiently.
- Collaborating closely with backend developers and designers to deliver end-to-end solutions.
- Rapidly learning and implementing new technologies essential for the startup's success.

Spawoz Technologies

Web Developer

Dec 2020 – Dec 2021 | Cochin, Kerala

- Crafting frontend solutions that can scale as the company grows, ensuring long-term viability.
- Successfully translating intricate design concepts into functional and polished interfaces.
- Seamlessly integrating third-party APIs to enhance application functionality.

Dimind Innovations

Web Developer

Jul 2019 – Dec 2020 | Alwaye, Kerala

- Developing efficient, minimalistic code that scales with the startup's evolving needs.
- Embracing the startup's culture, taking initiative, and fostering innovation.
- Focusing on features that directly impact the startup's growth and success.

PROJECTS

Customer Navigator

Product for data analyst people to keep track of their customer's complaints and frustration index.

Jan 2022 – Jul 2023

Lit | Angular | Typescript | Jest | Micro frontend | Agile

- Crafted frontend solutions that can scale as the company grows, ensuring long-term viability.
- Created a centralized UI components library, enhancing development speed by 30% through reusable components.
- Optimizing frontend performance to ensure smooth and efficient user interactions.
- Facilitated cross-team collaboration and ensured design consistency across the product.
- Collaborated with UX/UI designers to create visually engaging data visualization features, empowering users to gain insights effortlessly.
- Utilized libraries like Vega-lite and D3.js to transform complex data into accessible visuals.
- Actively incorporated user feedback and iterated on designs to enhance product features and user satisfaction.
- Ensured the frontend was ready ahead of schedule, contributing to the punctual release of the product.
- Ensured close alignment between UI and UX, delivering a consistent and satisfying user journey from product launch.
- Incorporated dynamic data visualization components that enriched the product's insights and usability upon release.
- Implemented robust security measures in the frontend, contributing to a secure and trustworthy product launch.

AE Dashboard

Product that effectively monitors and manages customer complaints.

Jul 2023 – present

Lit | Angular | Typescript | Jest | Micro frontend | Agile

- Demonstrated skill in optimizing frontend performance, resulting in faster load times and improved user satisfaction.
- Utilized data visualization libraries like Vega-lite and Chart.js to create dynamic visual representations of complex 'complaints' data sets.
- Thrived in Agile environments, actively participating in sprint planning, daily stand-ups, and iterative development cycles.
- Translated UX/UI designs into functional and visually appealing interfaces while preserving the integrity of user experiences.
- Passionately stayed current with industry trends and emerging frontend technologies, ensuring innovative and up-to-date solutions.
- Committed to maintaining high coding standards, actively participating in code reviews, and promoting best practices.
- Collaborated closely with cross-functional teams, including designers and backend developers, to deliver cohesive user experiences.
- Prioritized user needs and delivered intuitive interfaces that improved user experiences and engagement rates.

OTHER PROJECTS

Mulden Shop

A Waste Management E-Commerce

Sep 2021 – Nov 2021

Angular | Typescript | PrimeNG | Jira | Agile

True Lead Web

An Employee productivity Monitoring And Management Tool

Jun 2021 – Sep 2021

Angular | Typescript | Amchart | Jira | Agile

Contora

A digital Agreement Management Tool

Mar 2021 – Jun 2021

Angular | Typescript | Git | Agile | Jira

Restaurant Menu App - La Taverna

A Restaurant Dishes Menu Management Tool

Jan 2021 – Mar 2021

Angular | Typescript | Git | Agile | Jira

Hugs And Kisses

Kids Clothing E-commerce Website

Oct 2020 – Dec 2020

PHP | Codeigniter | FlightPHP | jQuery | Ajax | MySQL | Git | HTML | CSS | JavaScript

EDUCATION

B.Tech - Computer Science

Ilahia College of Enginnering & Technology

Jun 2015 – Jun 2019 | Muvattupuzha, Kerala

Higher Secondary

Govt H.S.S Aluva

Jun 2013 – Jun 2015 | Cochin, India

SSLC

IHSS Aluva

Jun 2012 – Jun 2013 | Cochin, India
